WORK EXPERIENCE

Data Scientist (Voluntary Internship)

June 2026 - July 2026

Phoenix Petroleum Philippines, Inc | BGC, Taguig City

- **Developed automated ETL workflows** by extracting data from SQL data warehouses and transforming raw datasets into analysis-ready data using Python.
- Automated daily ad hoc reporting using Python, Google Apps Script, and Google Sheets, **reducing report preparation time by 83% (from 30 min to 5 min)** while improving reporting efficiency.
- **Developed XGBoost forecasting models to predict 1-day, 2-day, and 3-day canister product demand**, supporting inventory planning and data-driven business decisions.
- Enhanced executive dashboards with **analytical heatmaps**, automated daily data refreshes, and web-based monitoring tools using Google Apps Script to improve product performance tracking.

Data Analyst (Academic Internship)

February 2026 - April 2026

Denso Ten Solutions Philippines Corporation | Ortigas Center, Pasig City

- Developed automated data extraction and processing workflows using Python and Excel VBA, **reducing manual reporting effort by over 75%-80% (from 10 min to 2-3 min)** while improving reporting accuracy and operational efficiency.
- Engineered the **Internal Defects Gathering Tool and Stack Output Analysis System** using SQL databases, automating the tracking and analysis of thousands of production issues to support operational monitoring and reporting.
- **Designed interactive dashboards** and business intelligence solutions using Microsoft Power BI and Power Apps, including a Skills Dashboard for a 10-member engineering team and product progress dashboards that **enabled real-time performance monitoring and data-driven decision-making**.

PROJECTS

FOVB-AIoT: Four-in-One Vital Sign Sensor with BMI Calculation

August 2025 - March 2026

Thesis Project | Lead AI and Software Developer

- Led the development of an AI-powered health monitoring kiosk by integrating Arduino-based IoT sensors, TensorFlow, and YOLO to capture, process, and analyze real-time vital signs, **designed for campus-wide use by students and employees at Rizal Technological University – Pasig Campus**.
- **Engineered** a cross-validated **Multi-AI Risk Score** architecture using **XGBoost** as the primary predictive model, validated through Gemini 2.0 Flash and Groq APIs to improve prediction reliability and minimize AI hallucinations.
- **Developed** a scalable React.js and Python REST API dashboard with MySQL, enabling real-time health monitoring, centralized data management, and flexible deployment across multiple environments.

Smart AI Kilo Bot: Intelligent Weighing and Pricing System

November 2025 - December 2025

- **Developed an IoT Web Dashboard:** Built a real-time frontend interface for an automated weighing solution, providing instant weight and pricing visualizations to accelerate transaction speeds in fast-paced marketplaces.
- **Engineered Hardware-to-Software Synchronization:** Integrated Arduino load cell sensors with a Python backend, creating a low-latency data pipeline that instantly computes and displays accurate pricing based on live weight data.

TECHNICAL SKILLS

- **Data Analytics & Business Intelligence:** Data Analysis, Data Cleaning, Data Extraction, Data Transformation, ETL & ELT Processes, KPI Development, KPI Reporting, Reporting Dashboards, Data Visualization, Business Intelligence, Microsoft Power BI, Tableau, Microsoft Excel (Advanced Formulas, PivotTables, VBA), Google Sheets
- **Data Engineering:** SQL, Data Warehousing, Database Management, Data Integration, REST APIs
- **Data Automation:** Python Automation, Excel VBA, Google Apps Script
- **Databases:** MySQL, MariaDB, SQLite
- **Programming:** Python, SQL, Javascript, Java, C#, C++, C
- **Machine Learning & AI:** XGBoost, TensorFlow, Deep Learning, Predictive Analytics, YOLO, OpenCV
- **Tools & Technologies:** Git, GitHub, Linux, Docker, DBeaver, Jupyter Notebook, Spyder IDE

CERTIFICATIONS

- Cisco Data Analytics Essentials
- Cisco Python Essentials 1

EDUCATION

Bachelor of Science in Computer Engineering (BSCpE)

August 2022 - July 2026

Rizal Technological University- Pasig City
